Grenadines

And Other Features

HERE'S a characteristic offer that you would know came from this store if it were printed without address or signature.

Seventy-five Hundred Yards of a silk-and-wool Grenadine A \$1.50 Quality for 50c. a Yard.

That will be enough to sell every yard, but as a matter of information, we will add that these are as handsome goods of their class as we have ever had in our stock. They are of the "Mexican Mesh" style,that is, woven in interlacing strips, basket - fashion, with a wide spacing; the open spaces being crossed by gauzy silk threads. A poor description (as every description of really handsome goods must needs be), but undoubtedly sufficient for you to recognize the general class of

Color combinations are gray-and-white, and black with mode, tan, brown, cadet blue, heliotrope, marine blue, reseda, green and cardinal. Also all black, which will probably sell fastest of all.

This is decidedly a grenadine season. A third of a fair price on such grenadines, at such a time ought to make something of a flurry.

We have opened Silk Shirt Waists a new Shirt Waist Store, and it's for Petticoats ones are selling at close weave, the real times the lowest price that cheese cloth fabrica elsewhere the lowest price that cheese girls, 8 to 14 years.
